

# 2017 FALL ACADEMIES

## **NEW!** Systemic Approach to Closing the Gap

This session trains participants on using the new **KASC Gap Closure Toolkit** with a multi-part attack on closing achievement gaps. Participants will interact with the contents of the kit and learn to use each piece effectively. The systemic approach of the kit is directed toward changing expectations and attitudes for all shareholders in the community.

## **NEW!** Digging Deeper into the Gap Closure Toolkit

This afternoon 3-hour session will allow participants to dig deeper into the contents and activities of the *Gap Closure Toolkit*. Time will be devoted to experiencing more of the toolkit activities, discussing how the resources are best used in the school setting, and planning for implementation by classroom teachers or school leaders.

## Proven Ways to Increase Achievement

In this 3-hour workshop, participants will examine proven factors that affect student achievement: growth mindset, student engagement, feedback, and relationships. Understand how these factors impact achievement and leave with strategies to implement in your classroom/school.

## **NEW!** Higher-Level Questioning with Quality Feedback

Learn how to raise the level of questioning in the classroom, lead effective discussions to impact student achievement, and provide quality feedback that engages learners. Participants of this 3-hour training will be prepared to help students achieve at higher levels.
